Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Claims 8-16 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected apparatus, there being no allowable generic or linking claim.

Applicant timely traversed the restriction (election) requirement.

Applicant's election with traverse of the restriction is acknowledged. The traversal is on the ground(s) that, first, the apparatus cannot be used to practice any process but that claimed, and second, there is not serious burden upon the Office to search both inventions. This is not found persuasive because first, there are no limitations in the withdrawn claims that would limit its use to the products found in the process claims, and second, it is a burden on the Office.

The requirement is still deemed proper and is therefore made FINAL.

This application contains claims 8-16 drawn to an invention nonelected with traverse. A complete reply to the final rejection must include cancelation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 17 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described

Art Unit: 1761

in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The claim recites the employment of "an anionic exchange resin employed in sequence with said cationic exchange resin" and specificational basis was not found or given.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-7 and 17 are indefinite because it does not utilize the commonly accepted U.S. preamble phrases, such as comprising, consisting essentially of, etc. The claims are interpreted as having a scope of a claim using the open phrase "comprising."

Claim 1 is indefinite because there is no antecedent basis for the phrases "the wine to be treated" or "said retained liquid."

Claim 1 is indefinite because it is not clear how one can obtain a permeated liquid and a treated liquid and then reunite the treated liquid with some retained liquid and obtain the treated liquid. Without clarification, due to the indefiniteness of this phrase and that below, the claims are unsearchable at the present time.

Claims 2-7 and 17 are indefinite because there is no antecedent basis for the phrase "said tartaric stabilization treatment phase."
